**Projected Needs, Specifications & Administrative Information**  
**Request for Proposal # 2012014**  
**Mobile Broadband for Apple iPad 3G**

**Projected Needs**

Listed below are the projected needs of the Norman Public School District for Universal Service (E-Rate) funding year 2012 (FY2012; Program Year 15) and district fiscal year FY13, both of which begin July 1, 2012 and end June 30, 2013. Norman Public Schools will entertain multiple proposal options including a multi-year service agreement; an annual service agreement, with or without voluntary extensions; and/or a month-to-month service agreement. Bidders may submit more than one proposal. Vendors must submit one (1) original plus one (1) copy of each proposal sent.

Vendor shall be familiar with the Universal Service Fund (USF) program for schools and libraries, commonly referred to as "E-Rate."

Vendor agrees to apply the approved USF discount to all services and/or products approved for funding and to invoice the Universal Service Administrative Company (USAC) for reimbursement.

Vendor shall provide to NPS staff and/or E-Rate consultant all of the information and documentation it acquires that NPS may need to prepare E-Rate applications and/or document transactions eligible for USF reimbursement. Vendor agrees to notify NPS in a timely fashion of any service provider administrative or account changes, additional information, missing documentation, or procedural steps which come to their attention and could affect USF reimbursements. These include, but are not limited to, any contracts to be signed and executed by NPS and Service Provider; and/or any vendor worksheets to be completed by NPS which are provided to the Service Provider for invoicing purposes. To the extent possible, vendor agrees to bear the burden of any vendor-initiated forms, as well as administrative or accounting changes that could affect reimbursements or E-Rate forms.

Vendor agrees to acquire a Service Provider Identification Number (SPIN). The SPIN shall be included in the vendor's proposal. Vendor agrees they will not change any SPIN reported by NPS to USAC on FCC Forms without prior approval from NPS. If NPS approves the change, vendor agrees they will assist NPS in providing all pertinent information and to assist NPS in applying to USAC to implement the change.

Vendor understands and agrees that this contract is contingent upon:

- The approval and acceptance of this contract by the Norman Public Schools Board of Education.
- The availability and encumbrance of the District funding sufficient to pay any costs incurred by the District due to any E-Rate discount award
- The approval and funding of this contract by the Universal Services Fund, Schools and Libraries Division.

**Specifications**

The Norman Public School District is seeking mobile Internet access (mobile broadband) data plans for Apple iPad 3G tablet computers when they are operating remotely (off-campus). We have an immediate need for sixteen (16) data plans with a possible growth of up to fifty (50) data plans as we acquire additional iPads. Preference will be shown for a 3G-only solution compatible with current district equipment. Service providers are welcome to propose solutions that utilize the integrated cellular (3G) or Wi-Fi (802.11a/b/g/n) capabilities of the iPads, but all iPads with data plans must be able to access the Internet simultaneously and independently from different locations. Proposals must explicitly state any Internet bandwidth limitations and the price of additional bandwidth when limitations are exceeded. Preference will be shown to those service providers who provide a solution which does not rate limit bandwidth after predetermined usage levels. Service providers are welcome to submit multiple proposals including, but not limited to, proposals with a price per data plan, proposals with tiered pricing for plans with different Internet bandwidth levels, statewide or government proposals (vendors must provide contract number and pricing). Any non-recurring (e.g., equipment, software, installation, configuration) costs should be described and clearly differentiable from monthly recurring costs.

Solutions must provide connectivity from any location within our district boundaries (online map: <http://www.norman.k12.ok.us/002/lib/boundaries.php>). Please include a map and/or a link to an online map of both domestic (U.S.) and international connectivity coverage areas. We are especially interested in central Oklahoma coverage. The estimated numbers of need are provided strictly as estimates based upon current volume and projected future need. This is not a guarantee or commitment to contract, but is being utilized to assist the vendor and for the sole purpose of comparison to find the most advantageous solution for the district.
