

## Sexuality Education and HIV/AIDS Prevention Parent Information Night

This year starting in late April, Norman Secondary Schools will begin teaching our abstinence-based Sexuality Education and HIV/AIDS Prevention curriculum at each grade level. The program promotes a positive approach to sexual abstinence and is age-appropriate.

A parent information night will be held on March 1, 2012 at 6:30 P.M. in the Science Building at the Longfellow Middle School (215 N. Ponca). Teachers and administrators will give an overview of the curriculum.

If you cannot attend this meeting materials from these programs will be available at the Curriculum Center for you to review from March 2<sup>nd</sup> – April 13<sup>th</sup>. Please call to schedule an appointment. We recognize parents and guardians as the primary educators of their children and encourage you to have discussions with your child.

Your child will be included in this program, unless you do NOT wish for him/her to participate. Students not participating will be given an alternative assignment. If you do NOT want your child included in this program please notify their science teacher in writing before April 15<sup>th</sup>.

If you have additional questions feel free to contact Jeffrey Patterson, Science Coordinator at 447-6578 or [jefferyp@norman.k12.ok.us](mailto:jefferyp@norman.k12.ok.us).
